

## REMARKS

In the final office action of March 1, 2006, a box on the cover sheet was checked indicating an objection to the drawings. The Examiner did not state what aspect of the drawings was objected to, and did not mention the objection in the body of the office action. Applicant is unclear as to what deficiency is present in the drawings, and thus has not included replacement drawings.

Applicant is willing to provide replacement drawings to correct any deficiency, and requests that the Examiner provide a description of what changes need to be made to the drawings. Applicant is willing to provide such drawings responsive to a separate request, or in response to the next office action.

As noted in the previous response, the office action of March 1, 2006 should have been non-final, as a new rejection was entered for the subject matter of previous claim 22, held as allowable in the previous office action.

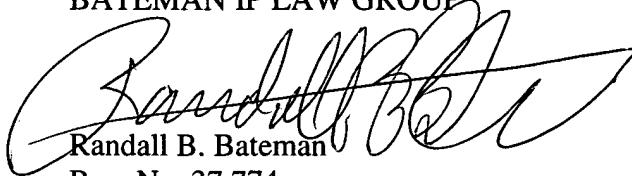

Applicant believes that the application is in condition for allowance.

The Commissioner is hereby authorized during the entire pendency of this application to credit any overpayment and debit any amount owing, including fees for extensions of time, to Deposit Account No. 50-2720.

Should the Examiner have any concerns with the present amendment, it is requested that he contact Applicant's counsel, Randall B. Bateman, at (801) 533-0320 so that these concerns may be quickly resolved.

Sincerely,

BATEMAN IP LAW GROUP
